## **DETAILED ACTION**

### ***EXAMINER'S AMENDMENT***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Gene Robinson on 12/2/2004.

Claims 1-10 and 14-18 have been cancelled.

### ***Reasons for Allowance***

Claims 11-13 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 11, the closest prior art of record, applicant's admitted prior art (Fig. 20 of drawing) does not disclose the following limitations: the variable impedance circuit including at least one second variable impedance device which is connected between a node between the plurality of first variable impedance devices and the second potential.

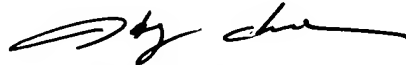

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Patent numbers (6,259,321; 5,650,747; 6,304,142) are the differential amplifiers with the variable impedance circuits.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry Choe whose telephone number is (571) 272-1760.
